- Mater Pressure stat.
- Vibration pump.
- Dimensions (W x D x H): 274 x 425 x 360* (*including cup frame surround).
- The usual and expected Rocket build quality, components and reliability.

Holding the calibre of the Rocket Espresso brand in its design and function the Appartamento is a compact espresso machine created with a small footprint to balance in an environment where space is at a premium, yet a quality cup of coffee is not compromised.

Rocket Engineers have optimised the chassis and internal layout of the Appartamento to design an attractive machine featuring components capable

of producing an espresso full of flavour and great steam quality.

Capturing the modern style of design and incorporating this into an espresso machine, the Appartamento features a simplistic circular feature on the side panels with the option of either a white or copper insert available to create a contrast.

With familiar quality and features Rocket Espresso consistently delivers.
